

MOJ Publishes English Version of “Customized Stay Guide” for Foreigners!

- Better Access to Visa and Immigration Information Expected -

The Ministry of Justice (MOJ) has published and released an English version of ‘Customized Stay Guide for Foreign Residents’ (hereinafter referred to as ‘Visa Navigator’) on May 16, 2023, in the form of e-book, which is a guidebook containing visa and immigration information of the Republic of Korea to provide better services for foreigners residing in the nation.

※ Korean version of the Visa Navigator was released on December 29, 2022

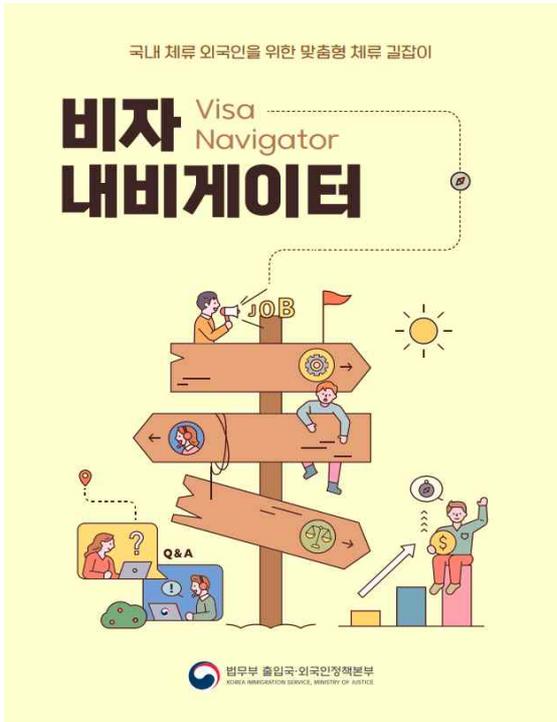

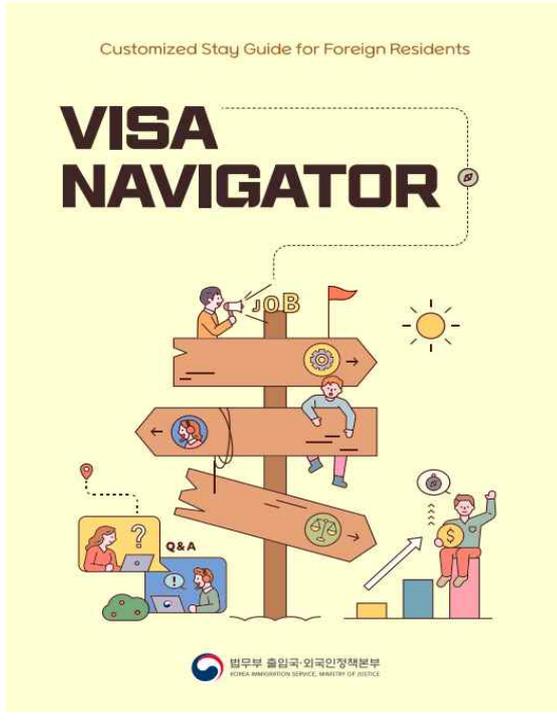

The Visa Navigator details types of visas (37 categories), scope of employment, process of obtaining permanent residency status (F-5) from initial stay, how to use e-Application services, frequently asked questions and answers, and obligations for foreigners under the nation’s Immigration Act. All this is expected to increase access to visa and immigration information for foreign residents staying in Korea.

The book has been published, reflecting opinions that an English version of the information is necessary to enhance convenience of foreigners not familiar with the Korean language, and is now available on the website of Korea Immigration Service (www.immigration.go.kr) as well as on the official website of HiKorea (www.hikorea.go.kr).

Going forward, the Ministry of Justice will work to further enhance access to the nation’s visa and immigration system for foreigners to help them adapt to and settle in Korean society.
